E. Ted Dean
GEOGRAPHER/GIS SPECIALIST
TedDean@sisna.com

January, 2005

Education

B.A. in Geography. 1988. Utah State University. Specialized in Geographical Information System (GIS) applications.

Professional Experience

(1987 to Present) Geographer/GIS Specialist. White Horse Associates, Smithfield, Utah. Project experience in database development for environmental monitoring and inventory analysis with special emphasis on hierarchical classifications of stream, riparian, and wetland habitats. Compiled registered and orthogonized mapping from a variety of images using ERDAS Image and ArcInfo GIS. Prepared maps, inventory data, and spatial summaries for reports.

(1989) Geographer/Remote Sensing Specialist. Utah State University. Habitat inventory of Deep Creek Mountains of Western Utah. Habitat for elk, deer antelope, and big horn sheep was mapped using satellite imagery.

(1991) Remote Sensor/GIS Specialist. Utah State University. Preparation and development of a environmental database to be used in conjunction with an archeological inventory of four military installations located in Northern Utah.
